

Address: Üniversiteler Mah., ODTÜ 2. Yurt, Oda No: 305, ODTÜ
06800 Çankaya, Ankara
Telephone: 05376873584
E-mail: selmandinc@outlook.com
Driver's License: B

Who I am?

I am an enthusiastic candidate of electrical and electronics engineering. I am motivated, adaptable and good at teamwork. I look forward to working with Ralazaba Electronics in some of the fields of control systems, embedded systems, RF systems, system design and system engineering.

Education

2014 - Present

Electrical and Electronics Engineering Bachelor
Middle East Technical University, Ankara/Turkey
Cumulative Grade: 3.42

2014 - 2010

Aydın Ortaklar Anadolu Öğretmen Lisesi
College, Ortaklar/Aydın
Average Grade: 91.74/100

Other Activities

2018 Summer

Internship at Aselsan Elektronik ve Ticaret A.Ş.
Worked as a radar system engineer
Worked on radar signal processing

2016 - Present

Volunteer work
Participated in organizations coordinated by Ankara Gönüllü Takımı
Prepared and taught lessons and corrected homework
Organization of trips for educational purpose

2014 – 2015

METU IEEE Community
Participated in classes and discussions of Computer Society

Skills

Languages: Turkish (mother tongue), English (moderate spoken, and good written command), German (beginner level spoken and written command). Programming: Having a good command of C++, MATLAB and VERILOG HDL. I have experience with Key Creator, LTSpice, Proteus-ISIS, Arduino and ARM based STM products. I am currently working on MATLAB, SIMULINK, ALTIUM and programming by Python. I worked with various ATMEL microprocessors, FPGA programming, embedded systems and close-range RF links. During bachelor's degree, I carried on a work with VEE, QUARTUS, PARAVIEW and GPRMAX.

Interests and Additional Information

I do long range bicycle touring in summers. I attended an archery course and, I continue archery.

Hobbies of RC planes and autogyro systems.
