Personal Statement

I am an enthusiastic candidate of electrical and electronics engineering. I am motivated, adaptable and good at teamwork. I look forward to working with Ralazaba Electronics in some of the fields of control systems, embedded systems, RF systems, system design and system engineering

Knowledge

Having a good command of **C++**, **MATLAB** and **Verilog HDL**. I have experience with Key Creator, LTspice, Proteus-ISIS, Arduino and ARM based STM products. I am currently working on MATLAB, **Simulink**, **Altium** and programming by **Python**. I worked with various ATMEL microprocessors, **FPGA** programming, embedded systems and close-range RF links. During bachelors degree, I carried on a work with VEE, Quartus, Paraview and GPRMAX.

Education

Institution	Years	Score (cGPA)
Middle East Technical University (METU)	2014-Present	3.42/4.00
Mersin Science High School	2010-2014	91.74/100

Internship

Aselsan Elektronik ve Ticaret A. (2018)

I Worked on radar signal processing as radar system engineer.

Volunteer work

2016 - Present
Participated in organizations coordinated by Ankara Gonullu Takımı. We prepared and taught lessons and corrected homework. We set organization of trips for educational purpose. 2014 2015 METU IEEE Community I participated in classes and discussions of Computer Society.

Languages

Turkish (mother tongue), English (moderate spoken, and good written command), German (beginner level spoken and written command)
